

BOREDDI YOGESWARI

Python & Full Stack Developer

Location: Bangalore,Karnataka, India — Portfolio check here — GitHub check here — LinkedIn check here —

Professional Summary

Entry-level **Python & Full Stack Developer** with a strong foundation in software development, backend APIs, and database-driven applications. Hands-on experience with Python, Django, FastAPI, Java, SQL, ReactJS, Machine Learning, and AWS cloud services through academic projects and internships. Passionate about problem-solving, learning new technologies, and building scalable real-world applications.

Technical Skills

- **Programming:** Python, Java, SQL, JavaScript
- **Computer Science:** Data Structures, OOP, DBMS, Operating Systems
- **Web Development:** HTML, CSS, Bootstrap, ReactJS
- **Backend Technologies:** Django, FastAPI, REST APIs
- **Machine Learning:** Machine Learning, Deep Learning, Text and Image Processing
- **Cloud & DevOps:** AWS (EC2, S3, IAM, RDS, CloudWatch), Git, GitHub, Jenkins, Docker
- **Databases:** MySQL, SQLite

Internships & Training

DevOps with AWS Training Intern

Internship Studio

- Gained hands-on experience with AWS services including EC2, S3, IAM, and RDS.
- Learned cloud deployment workflows, monitoring, and basic security practices.
- Worked with CI/CD concepts and automation fundamentals.

Java Full Stack Intern

Rooman Technologies

- Trained in Java, Spring Boot, REST APIs, and MySQL.
- Developed backend modules for practice and academic applications.
- Applied object-oriented programming principles and Agile concepts.

Full Stack Web Development Course

IIDT Institution

- Completed an 8-week intensive training covering HTML, CSS, JavaScript, PHP, DBMS, and basic AI concepts.
- Actively participated in daily quizzes, exercises, and module-wise assessments.
- Practiced independent coding and successfully completed the final assessment.

Projects

Multimodal Fake News Detection System – Python, ML, DL, Django

- Developed a system to detect fake news using both text and image data.
- Built a secure Django web application with authentication and admin control.

Personal Expense Tracker – Python, JSON

- Created an expense tracking application with structured data handling.
- Implemented CRUD operations using JSON storage.

AWS EC2 and S3 for Web Hosting – AWS (EC2, S3, IAM)

- Deployed a web application using **AWS EC2** for backend hosting and **Amazon S3** for static content storage.
- Configured **IAM roles**, security groups, and domain settings to enhance performance and security.
- Implemented cloud deployment best practices, gaining hands-on experience with AWS infrastructure and hosting workflows.

Employee Feedback System – Python, FastAPI, SQLite

- Developed REST APIs for structured employee feedback submission.
- Implemented role-based authentication and secure data storage.

CRUD Application – Core Java, MySQL

- Built a simple application to perform Create, Read, Update, and Delete (CRUD) operations using Core Java and MySQL.
- Gained hands-on experience with JDBC, SQL queries, and database connectivity.
- Strengthened understanding of backend logic and data persistence.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering

CGPA: 8.5 / 10

Year of Completion: 2026

Certifications

- Full Stack Web Development – IIDT Institution
- Machine Learning with Python – Skill Dunia E-Cell, IIT Hyderabad
- Java Full Stack – Rooman Technologies
- Cybersecurity Course – IIDT Institution
- Web Development Course – Internshala
- Python Workshop – Offered by Webvoid Technologies
- Paper Presentation (PPT) & Poster Presentation – JNTU

Key Achievements

- Won **Best Paper Presentation** at JNTU Seminar.
- Collaborated in the development of the **Personal Expense Tracker** project using Python and JSON.
- Successfully cleared the **TCS iON National Qualifier Test**, demonstrating strong problem-solving and technical skills.

Publications

- **The Story of DevOps: A Journey of Innovation and Collaboration** – An article highlighting the evolution of DevOps, emphasizing collaboration, automation, and building reliable software systems.

Languages

- English – Proficient
- Telugu – Native
- Hindi – Intermediate
