PROFESSIONAL SUMMARY:

Highly motivated Bachelor of technology in Computer Science and Engineering student at MJR College of Engineering & Technology (JNTUA affiliated) with a C.G.P.A of 8.5/10. Enthusiastic about Technology, Testing, Coding and Deployment with hands-on experience in DevOps tools & AWS Cloud. Proven ability to design, implement, and deploy scalable applications and automation solutions. Seeking opportunities to apply technical expertise in real-world scenarios.

PROJECTS:

Multimodal Fake News Detection System- Python, ML, DL, Django

- Designed a system to detect fake news using text and image data.
- Built a Django web application with authentication and admin control.

Code: <https://github.com/B-YOGESWARI/Multimodal-Fake-News-Detection>

Personal Expense Tracker

- Developed an expense tracking application using Python and JSON.
- Features: Add, view, delete expenses and manage user accounts.
- Technologies: Python & JSON
- Code: [GitHub-Personal-Expenses-Tracker](#)

ATM Software Project

- Built an ATM management system for account handling.
- Features: Balance inquiry, withdrawal, deposit, and transaction history.
- Technologies: Java, SQL
- Code: [GitHub-ATM-Software-Project](#)

E-Commerce Platform (Online Bookstore)

- Created a full-stack e-commerce platform for an online bookstore.
- Integrated payment gateways and user authentication.
- Technologies: Java, SQL, Bootstrap, JavaScript, Html, CSS, ReactJS.
- Code: [GitHub-E-Commerce](#)

CRUD Application (Java & MySQL)

- Built a simple application to perform Create, Read, Update, and Delete operations using Core Java and MySQL, gaining hands-on experience in JDBC, SQL queries, and database handling.
- Technologies: Core Java, MySQL
- Code: [GitHub-CRUD-Application](#)

Employee Feedback System

- Built a simple and user-friendly web app using FastAPI where managers can give feedback to employees on their performance.
- Added features like secure login, structured feedback submission, and safe data storage with SQLite. □ Technologies: Python, API's & SQL □ Code: [GitHub-Emp-feedback](#)

SKILLS :

Cloud Platform (AWS) :

EC2- VPC- S3- IAM- ALB- ASG
CloudWatch- CloudTrail- SNS
SQS- SES- RDS.

DevOps:

- Git & GitHub
- Jenkins
- MVN
- Docker
- Nexus/JFrog
- Tomcat

Languages:

- Java
- Python
- SQL
- HTML
- CSS
- JavaScript
- ReactJS

Operating Systems :

- Linux
- Windows

EDUCATION :

• Bachelor of technology in Computer Science and Engineering from MJR College of Engineering & Technology, Piler (Affiliated to JNTUA) with C.G.P. A: 8.5/10 | Year of Completion: 2026

• Intermediate (XII) from Sree Bharathi Junior College, Piler with Percentage: 60% | Completed on 2022

• Secondary Education (X) from Z.P. G.H School, Rompicherla with Percentage: 98% | Completed on 2020

INTERNSHIPS:

DevOps with AWS Training - Offered by Internship Studio

- Gained hands-on experience in AWS cloud services (IAM, EC2, S3, RDS, Route 53).
- Implemented CI/CD pipelines with GitHub and Jenkins.
- Automated server provisioning using Terraform and Ansible.

Full stack Course - Offered by ROOMAN Technologies Bangalore, KA

- Currently attending a Java Full Stack internship at Rooman Technologies, where I'm learning to build full-fledged web applications using Java, Spring Boot, HTML, CSS, and MySQL. Gaining hands-on experience through real-time projects and practical training. **Full stack web development course - offered by IIDT Institution**
- Completed an 8-week Web Development Training covering HTML, CSS, JavaScript, PHP, DBMS, and AI Engaged in daily quizzes, exercises, and module tests for each language, reinforcing hands-on learning. Practiced coding independently and successfully completed the final assessment.

CERTIFICATIONS:

- Full Stack Web Development Course - **Offered by IIDT Institution.**
- Machine Learning with Python - **Offered by Skill Dunia Ecell, IIT Hyd.**
- Paper Presentation (PPT), Poster Presentation - **Offered by JNTUK.**
- Python Workshop - **Offered by MJR College.**
- Cybersecurity Course - **Offered by IIDT Institution.**
- Web Development Course - **Offered by IIDT Institution.**
- Web Development Course - **Offered by Internshala.**
- Java Full stack Course - **Offered by Rooman Technologies**

INTERESTS:

I interested to share my knowledge through **LinkedIn**.

DECLARATION:

I hereby declare that the information provided above is true to the best of my knowledge.

B. YOGESWARI

KEY ACHIEVEMENTS :

- Won Best Paper Presentation at JNTU Seminar.
- Collaborated with a team in the development of the "Personal Expense Tracker" project using Python and JSON
- Successfully cleared the TCS iON National Qualifier Test, showing my aptitude, problem-solving, and technical skills. This achievement reflects my dedication and readiness to take on professional challenges.

PUBLICATIONS:

- The Story of DevOps: A Journey of Innovation and Collaboration
Before knowing the DevOps the software should be facing many problems, struggles, and issues. I published an article related, DevOps isn't just about tools or automation it's about people working together to build better, faster, and more reliable software.
